

GURU NANAK GIRLS COLLEGE SANTPURA, YAMUNA NAGAR

(Affiliated to Kurukshetra University, Kurukshetra)

Ph. 01732- 224372, Fax: 01732-200546

(Accredited Grade "A" by NAAC)

Policy for Energy Conservation

Reduce energy consumption and improve energy efficiency on campus. The following policy is adopted. This policy will be reviewed and updated periodically

- Replaced lights with LED lamps or the most energy efficient option available. They consume less power and last for longer periods of time.
- Limit the use of artificial lightning to those areas that are not sufficiently lighted.
- Switch off the lights and fans in room, lecture halls, labs, corridors and stairs if not in use.
- Also switch off and plug out all equipments and computers when not in use.
- Put computers in hibernation mode while taking a break.
- Buy energy efficient devices and use energy saving features of all devices.
- Print only when necessary and avoid printing files that can be sent via mail. It also reduces paper wastage.
- Renewable resources: Install solar panels. Aside from being a great source of renewable energy, solar panels are clean, long lasting and require little maintenance.
- Encourage a culture of conservation on campus and spread awareness among the students and staff about why it is important.
- Evaluate overall energy efficiency by doing energy audits.
