(Accredited Grade "A" by NAAC)

Policy for Water Conservation

Water is the most valuable resource on the earth. It is an obligation of the humanity to save water resources for the future generations. To protect water environment and save the fresh water 'Water Conservation Policy' has been adopted by our institution.

- Institution promotes economical use of water. Water must not be wasted at any cost.
- To fix the water leakage regular checking of leaks in pipes, toilets, taps, faucets, showers (in hostel) is mandatory.
- Institution promotes Investment in water saving equipments like double level flushing system in frequently used toilets, Urinals in gents' toilets and sprinklers in grassy lawns.
- Washing Machines are provided in hostels to minimize the use of water.
- More thrust is given to use refillable water bottles by the Staff and students on daily basis. To achieve this goal RO water coolers are provided on each floor.
- Strict instructions are given to sweepers to use floor mops and avoid wasting bucket loads of water to clean the dirt.
- Rain water harvesting is adopted by the Institution to collect and store rain water in Water Recharge Well/ Rain Harvesting Tank.
